Seif Ashraf

Full-Stack & Mobile Developer

Cairo, Egypt · +20 106 989 6831 · seifdarkx@gmail.com · seifashraf.dev · linkedin.com/in/seifashraf-dev

SUMMARY

Full-stack and mobile developer with 3 years of experience shipping production software end to end, from database design to UI. Builds live social apps, business platforms and client websites with React, Next.js, React Native, Laravel and Supabase, with full Arabic/English RTL. Works with Claude Code daily to ship fast while keeping code reviewed and tested.

EXPERIENCE

Full-Stack Mobile Developer, LinkUp (LINKUP LIVE CHAT LLC, USA) — Jun 2026 – Present · Remote

React Native (Expo SDK 52), expo-router, Zustand, Firebase, Agora, TypeScript

- Develop LinkUp, a live audio-room social app with voice rooms, virtual gifting, VIP and agency systems, real-money transactions and Arabic/English RTL.
- Audited a ~650-file TypeScript codebase (scored 73/100); found an 8,000-line god component, a logic bug in host tasks and silently swallowed errors in auth and payment paths, and wrote a prioritized fix plan.
- Led QA and bug triage: merged tester reports from 3 Arabic sources into one 58-item English tracker and shipped fixes in reviewed rounds.
- Designed IP-based country scoping for the admin dashboard, including VPN edge cases; wrote the team's AI-assisted coding standards (feature branches, pull requests, code review).

Freelance Full-Stack Developer, seifashraf.dev — Remote

Websites, booking systems and back-office software for small businesses, from scoping to deployment and support. Key projects below.

Full-Stack Developer, NeoWave — Feb 2025 – Mar 2025 · Remote

- Built a Product Code Generator platform with Next.js and React, including API integrations and authentication; optimized assets to cut page load times.

Web Developer, Ejada — Feb 2025 – Mar 2025 · Remote

- Built responsive React/Next.js web apps with UI/UX designers; improved performance and cross-browser support.

PROJECTS

Car Engineering Center, Workshop Management Platform — In production · 4 branches

Next.js, React 19, TypeScript, Supabase (PostgreSQL, Realtime, Auth), Tailwind CSS

- Built the platform a car workshop chain in Iraq runs on daily: 34 screens, 12 tables, ~29,500 lines of TypeScript, 309 commits.
- Engineered work orders priced automatically from inspection checklists, a live workshop floor with per-car countdowns, and a real-time multi-branch dashboard.
- Added QR-code invoices so customers track their car live without logging in, and payroll computed from biometric or Excel attendance.

Mawid, Booking Platform for Gulf Clinics — Own product · mawid-bay.vercel.app

Next.js 16, React 19, TypeScript, PostgreSQL (Neon), Drizzle ORM, Tailwind CSS, Vercel

- Built an Arabic-first booking and front-desk product for clinics: patient booking, a live team schedule, WhatsApp reminders and insights.
- Made double booking impossible in the database with a Postgres exclusion constraint, tested with five simultaneous holds on one slot.
- Wrote a bilingual English/Arabic assistant that books, moves or cancels only after confirmation; 36 automated tests run in CI.

Salad Store, Bilingual Ordering Site — Live · saladstore-eg.vercel.app

Arabic/English ordering and e-commerce site for a Cairo salad bar. Also built 6 interactive demos on seifashraf.dev: dental booking with reminders, CRM, SaaS metrics dashboard, restaurant ordering, bowl builder and an events site.

SKILLS

Languages: TypeScript, JavaScript, PHP, Java, Python, SQL
Front end and mobile: React, Next.js, React Native (Expo), Tailwind CSS, HTML/CSS, responsive and RTL design
Back end and data: Node.js, Express, Laravel, Supabase, Firebase, PostgreSQL, MySQL, Drizzle ORM, REST APIs, authentication
Realtime and integrations: Agora, LiveKit, Supabase Realtime, Twilio (SMS, WhatsApp OTP)
Tools and process: Git, GitHub, pull requests, code review, Vitest, CI, QA and bug triage, code audits, Vercel, Claude Code, Cursor

EDUCATION AND CERTIFICATIONS

Misr International Computer Academy (MICA), Giza, Egypt · Diploma, 2026 · Graduation project: software system for the Ministry of Industry and Trade

Oracle Academy award, Java Fundamentals · RoboCup MICA Egypt 2025, certificate of achievement · MICA Java Summer Camp
Languages: Arabic (native), English (professional)
